

We present ourselves on the market with the slogan **"Safety without compromise!"**. We understand our customers' problems and find the right solution.

We set the highest standards for our safety cabinets and continuously subject them to the latest and highest test requirements:

solutions

Welcome!

1984 - GS certification of safety cabinets

For more than 20 years, our safety cabinets have been tested by independent inspection agencies such as TÜV Süd according to the valid standards and legal regulations.

DIN EN 14470-1 / DIN EN 14470-2

1994 - Introduction of quality management according to DIN EN ISO 9001

DUEPERTHAL introduced its quality management in 1994 and had the company certified to DIN EN ISO 9001. Due to our high quality standards, we guarantee consistent quality at the highest level.

DIN EN ISO 9001

2006 - Additional testing according to the laboratory furniture standard DIN EN 14727

The requirements for minimum quality and durability standards of laboratory furniture were redefined in 2006 with publication of the new DIN EN 14727 standard. Here too we maintain a consistent approach and have also had our safety cabinets tested and certified according to the new standards.

DIN EN 14470-1 / DIN EN 14470-2 / DIN EN 14727

quality

2007 - Awarded the "High Quality" mark of approval

All tested safety cabinets not only fulfil the requirements of the valid standards as well as the equipment and product safety legislation, but also provide added quality and convenience. TÜV Süd has therefore awarded its **"High Quality" mark** to DUEPERTHAL for **product design, user friendliness, durability and product quality**, the first manufacturer world wide to receive it.

High Quality - quality mark

2009 - Certified system solutions

Development of TÜV-certified system solutions for active storage in consideration of the valid standards and legal regulations.

Active storage
