Germany

The annual inspection of safety cabinets with proof of testing is legally required by the Arbeitsstättenverordnung (workplace regulations). Employers are responsible for implementation.

The DUEPERTHAL Service Agreement DS 2/5-4* includes the following services:

- Annual safety inspection and maintenance
- Test certificate and test sticker
- Time required for repairs (spare parts are billed separately)
- **Travel costs**
- 5 year manufacturer's guarantee**

Number of cabinets:

1 _____ (please enter quantity)
2 - 3 _____
4 plus _____

Lump sum per cabinet/year:

Number of extraction systems:

1 _____ (please enter quantity)
2 - 3 _____
4 plus _____

Lump sum per extraction system/year:

The inspection and maintenance covers all **safety relevant parts**, such as fire protection and air seals, fusible links, ventilation openings, door closers and locks and the insulation. Furthermore, all **mechanical components** are checked to ensure that they are in sound working order and an **exhaust air measurement is taken**. Malfunctions are immediately corrected.

Deviations from this contract are only valid if they have been agreed in writing by both parties to the contract. Otherwise the Service Terms and Conditions (supplement) shall be complied with.
